

Sure-Cote Line-marking Aerosols

Sure-Cote Line-marking Aerosols

Utilising highly effective xylene-free solvent-based acrylic technology, **Sure-Cote** is specially formulated as a general purpose marking paint. **Sure-Cote** will provide markings on surfaces that are subject to normal levels of activity. On sport and play surfaces subject to higher than normal activity we recommend **Tuf-Cote**.

Incorporating special pigments to ensure brightness, **Sure-Cote** lines will remain visible for the lifetime of the paint.

Sure-Cote aerosols are designed to be used by hand or in a robust 4-wheel trolley specially constructed for the purpose. The 4-wheel trolley, available from Sports Coatings, can be set to mark lines at 50mm (2") or 75mm (3") widths and is easily converted to a 2-wheel version.

For a 50mm line and depending on application speed, coverage per can is approximately 100m.

Sure-Cote is available in seven standard colours: white, yellow, red, blue, green, orange and black with special colours available on request.

Special Properties

-  Easy application for precise markings
-  Low odour
-  Fast drying for minimal downtime
-  Bright pigmentation for better visibility
-  Wide range of colours in 750ml can

Uses

Sure-Cote is suitable for use on natural grass, synthetic grass and tarmac or cement based hard surfaces.

Sure-Cote makes an excellent marking paint for playgrounds, sports surfaces and car parks. Temporary road markings can also be made with Sure-Cote together with spot markings to indicate "Ground Under Repair" on playgrounds, sports surfaces, car parks and roads.
