## Sports-Line **SPEEDLINE** Water-based Acrylic Line-marking Paint

### Standard Colours

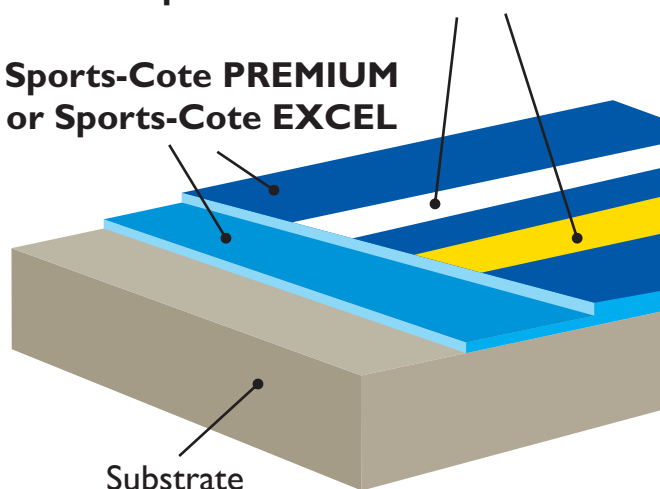

*The colour of the applied coating may differ from the above representation. Contact our Technical Service Department if an accurate sample is required.*

## Court Design Sports-Line **SPEEDLINE**

### Sports-Line SPEEDLINE

#### Sports-Cote PREMIUM or Sports-Cote EXCEL

### Description

**Sports-Line SPEEDLINE** is a single pack water-based paint designed for application to concrete sports surfaces, impervious acrylic, porous macadam tennis and netball courts, together with coated tennis and netball courts.

**Sports-Line SPEEDLINE** incorporates quick curing resins, allowing the paint to dry at temperatures as low as 2°C.

**Sports-Line SPEEDLINE** is formulated using water-based acrylic resin technology which provides an environmentally safe coating with the necessary player/surface interaction characteristics to meet the current standards. **Sports-Line SPEEDLINE** also incorporates UV resistant resins, providing the paint with outstanding colour retention properties throughout its life.

### Uses

**Sports-Line SPEEDLINE** is used to line mark the playing areas on concrete sports surfaces, impervious acrylic, porous macadam tennis and netball courts, together with courts already coated with either **Sports-Cote Premium** or **Sports-Cote Excel**.

**Sports-Line SPEEDLINE's** quick drying properties allow for application during periods of low ambient temperature. Facility downtime can also be minimised by the use of **Sports-Line SPEEDLINE**.

**Sports-Line SPEEDLINE** is highly durable and will impart slip resistance to comply with SAPCA's Code Of Practice for the Painting of Porous Macadam Tennis and Netball Courts ([www.sapca.org.uk](http://www.sapca.org.uk)). For compliance with the respective slip resistance criterion for tennis and netball courts **Sports-Line SPEEDLINE** is supplied in Extra Texture and Full Texture finishes.

**Sports-Line SPEEDLINE's** colour retention properties mean that court line markings remain highly visible for the lifetime of the paint.

### Model Specification

- Product: **Sports-Line SPEEDLINE**
- Number of coats: Two
- Finish: Extra Texture (tennis) and Full texture (netball)
- Colour: \_\_\_\_\_
- Substrate: Supplier's Instructions
- Preparatory work: Supplier's Instructions
- Supplier: Sports Coatings Limited
- Contact: Technical Service Department  
01440 766366

### Substrate and Preparatory Work

New macadam must be allowed to oxidise before coating and its surface should be grey and matt rather than black and glossy. The time it takes for oxidation to occur will vary depending on the nature of the surface and the climatic conditions. However, this will normally take between two and three weeks in the summer and may take up to three months in the winter.

All loose grit and other debris must be removed by vacuuming, blowing or sweeping prior to the application of **Sports-Line SPEEDLINE**. Previously coated surfaces should be assessed for compatibility prior to application of **Sports-Line SPEEDLINE**.

In situations where **Sports-Line SPEEDLINE** is used to line mark either **Sports-Cote PREMIUM** or **SPORTS-COTE Excel**, ensure that their second coats are touch dry before undertaking this.

# DATA SHEET

## Sports-Line SPEEDLINE

Water-based Acrylic Line-marking Paint

### Application

Most light-duty airless spray units are suitable for spraying **Sports-Line SPEEDLINE** (please contact our Technical Service Department for further guidance). Tip sizes will usually be in the 30-36 thou range.

**Sports-Cote SPEEDLINE** can be applied by brush or medium-pile roller.

Once the first coat of **Sports-Line SPEEDLINE** is touch dry, the second coat can be applied.

### Thinning

**Sports-Line SPEEDLINE** can be thinned with cool, clean water up to a maximum of 10% by volume. Note that accurate metering is essential to ensure a uniform finish.

### Application Conditions

Court line painting should only be undertaken in fine, dry weather and when substrate temperature is 2°C or higher and likely to remain so for 6-7 hours after this.

**Note: situations where frost may occur within 24 hours of painting must be avoided.**

### Packaging

5kg pots.

### Coverage

At a line width of 50mm, 25-50 linear metres/kg.

**Note: coverage will vary depending on substrate type, porosity, application temperature and technique.**

### Technical Information

Touch dry time:	1-2 hours at 20°C.
Full cure:	approximately 24 hours at 20°C.
Slip resistance:	meets with the requirements of SAPCA's Code of Practice for the Painting of Porous Macadam Tennis and Netball Courts. (www.sapca.org.uk)

### Shelf Life

**Sports-Line SPEEDLINE** has a shelf life of approximately 12 months in original, unopened packaging.

### Storage

Store above 5°C in an environment safe from frost.

### Aftercare and Maintenance

Detailed guidance on the maintenance of painted courts may be found in SAPCA's Code of Practice for the Maintenance of Synthetic Sports Surfaces (www.sapca.org.uk).

### Life Expectancy

If the court is used in accordance with its intended purpose **Sports-Line SPEEDLINE** will give acceptable performance for three to four years. However, certain factors will influence the performance of the coating and may well result in premature wear. Detailed guidance on the factors can be found in SAPCA's Code of Practice for the Maintenance of Synthetic Sports Surfaces (www.sapca.org.uk).

### Health and Safety

**Sports-Line SPEEDLINE** is a water-based paint, making it relatively safe to use and minimising the risk of environmental impact from its usage. For more detailed information please refer to **Sports-Line SPEEDLINE's** current Material Safety Data Sheet.

### Further Information

To ensure you are specifying or applying a fit for purpose coating please contact our Technical Services Department.
